**ENVIRONMENTAL PLANNING & ASSESSMENT ACT 1979
NOTICE OF DETERMINATION OF APPLICATION**

DEFERRED COMMENCEMENT

30 January 2019

Rawson Homes Pty Ltd
PO Box 3099
RHODES NSW 2138

Dear Sir/Madam

Pursuant to Section 4.16(3) of the Act, Council has granted "deferred commencement" consent to your development application described as follows:

PROPERTY: Lot: 127 DP: 1223098,
STREET ADDRESS: 21 WINNIMA CIRCUIT PEMULWUY
DEVELOPMENT CONSENT NO: 2018/441/1
DECISION: CUMBERLAND LOCAL PLANNING PANEL
**DATE FROM WHICH
CONSENT OPERATES:** TO BE ADVISED UPON SATISFACTORY
COMPLETION OF SCHEDULE 'A'
DATE OF EXPIRY OF CONSENT: TO BE ADVISED UPON SATISFACTORY
COMPLETION OF SCHEDULE 'A'

PROPOSED DEVELOPMENT: CONSTRUCTION OF A TWO STOREY DWELLING HOUSE

This Development Application is APPROVED in accordance with the Environmental Planning & Assessment Act 1979 and is subject to compliance with the requirements of Cumberland Council, the Building Code of Australia, the Local Government Act 1993, and the following conditions as set out hereunder and/or endorsed upon the attached plans.

**THIS CONSENT DOES NOT OPERATE UNTIL COUNCIL IS SATISFIED THAT ALL
SCHEDULE 'A' CONDITIONS HAVE BEEN SATISFIED.**

SCHEDULE "A"

Consent to the construction of a two storey dwelling house shall not operate until all of the following Schedule "A" conditions have been complied with to Council's satisfaction.

Adaptable Housing Requirement – 88B Instrument

1. The existing restriction registered on title with respect to the adaptable housing requirement shall be extinguished from the title. In this regard, a release or extinguishment document to comply with the NSW Land Registry Services requirements shall be prepared and submitted to Council for endorsement.
2. After the registration, a title search of the property showing the removal of the adaptable housing requirement shall be submitted to Council.

Building Envelope Plan

3. Lot 127 in DP 1223098 is restricted to a rear building setback of 8m to the ground floor and 12m to the first floor. Amended plans shall be submitted to Council which comply with the Building Envelope Plan for Lot 127 in DP 1223098. All plans including Stormwater and Landscape plans shall correspond with this requirement.

In accordance with clause 95(3) of the Environmental Planning and Assessment Regulation 2000, you must produce evidence to the Council within a period of 2 years, sufficient enough for Council to be able to be satisfied of the above matters.

If evidence is produced within the specified period, in accordance with Clause 95(5) of the Regulation, Council will notify you whether or not it is satisfied as to the above matters and whether or not the consent will operate.

SCHEDULE “B”

This consent cannot operate until such time as Council is satisfied with the evidence produced in response to Schedule “A” and has notified the applicant in writing of the date from which the consent operates.

PRELIMINARY

1. This consent shall lapse if the above development is not physically commenced by the date of expiry shown on the front page of this Consent.
2. The development is to be carried out in accordance with the following endorsed plans and documents:
 - Architectural Plans prepared by Rawson Homes, Job No. A007800, Dwg No’s. 02-07 (Inclusive) and 10, All Issue F, All dated 20 November 2017, – as amended to satisfy condition 8 and schedule A;
 - Landscape Plan prepared by Leafscape Designs, Dated 26 November 2018 - As amended to satisfy condition 8 and schedule A;
 - Stormwater Layout Plan prepared by Alw Design, Job No. SW18357, Dwg No. SW18357-S1, Issue B, Dated 22 November 2018 - As amended to satisfy Schedule A;
 - BASIX Certificate Number 951714S_02, issued on 21 November 2018 – As amended in red;
 - Schedule of finishes prepared by Rawson Homes, as received by Council on 22 November 2018;
 - Waste Management Plan prepared by Rawson homes P/L, dated 22 November 2018;

except as otherwise provided by the conditions of this determination and/or marked in red.

3. All building work shall be carried out in accordance with the requirements of the Building Code of Australia. Fully detailed plans including fire safety details shall be submitted with the Construction Certificate application. No work is to commence until such time as a Construction Certificate is obtained for the work/building permitted by this Consent.

Appointment of Council or a Private Certifier as the Principal Certifying Authority (PCA)

4. Either Council or a Private Certifier is to be appointed as the Principal Certifying Authority (PCA) for the development in accordance with Section 6.6 of the Act.

Accordingly, wherever reference is made to the Principal Certifying Authority in this Consent, it refers to Council or the Private Certifier as chosen by you.

Note: Once you have chosen either Council or a Private Certifier as the PCA, you cannot change from one to the other, or from one Private Certifier or another, without the approval of Department of Planning & Infrastructure.

5. The applicant shall consult with, as required:

- (a) Sydney Water Corporation Limited
- (b) Integral Energy
- (c) Natural Gas Company
- (d) A local telecommunications carrier

regarding their requirements for the provision of services to the development and the location of existing services that may be affected by proposed works, either on site or on the adjacent public road(s).

6. Building materials, builders' sheds, waste bins, site fencing, gates or any material of any description shall not be left or placed on any footway, road or nature strip. Footways and nature strips shall be maintained, including the cutting of vegetation, so as not to become unsightly or a hazard for pedestrians. Offenders will be prosecuted.

BASIX (Building Sustainability Index)

7. Under Clause 136D of the Environmental Planning & Assessment Regulation 2000, it is a condition of this Development Consent that all the commitments listed as per Condition 2 in relation to BASIX are fulfilled.

NOTE: FEES, BONDS & CONTRIBUTIONS INDICATED IN CONDITIONS OF THIS CONSENT MAY VARY IN ACCORDANCE WITH THOSE ADOPTED BY COUNCIL AT SUBSEQUENT ANNUAL REVIEWS OF ITS "FEES AND CHARGES" AND SUBSEQUENT CHANGES TO THE BUILDING PRICE INDEX. FEES CHARGED WILL BE THOSE CURRENT AT THE TIME OF PAYMENT.

PRIOR TO ISSUE/RELEASE OF CONSTRUCTION CERTIFICATE

The following conditions must be complied with prior to the issue of a Construction Certificate, or where relevant prior to demolition occurring. In many cases the conditions require certain details to be included with or incorporated in the detailed plans and specifications which accompany the Construction Certificate:

Amended Plans

8. Amended plans shall be submitted to the Principal Certifying Authority, prior to the issue of a Construction Certificate addressing the following issues:
 - i. Provide a minimum 500mm side setback (in the form of a landscape strip/garden bed) between the driveway and side boundary. It is required that this area be planted with suitable native plant species as amended in red on the plans submitted to Council;
 - ii. Proposed deck within the rear yard is to be amended to be pervious surface as amended in red on the plans submitted to Council;
 - iii. Fixed obscure glazing for the 'stairwell' window along the eastern elevation as amended in red on the plans submitted to Council.

Payment of Bonds, Fees and Long Service Levy

9. The Principal Certifying Authority is to ensure and obtain written proof that all bonds, fees and contributions as required by this consent have been paid to the applicable authority. This includes all Long Service Levy payments to be made to the Long Service Payments Corporation.

Section 7.11 Contribution

10. Prior to the issue of a Construction Certificate, a monetary contribution imposed under Section 7.11 of the *Environmental Planning and Assessment Act 1979* and Pemulwuy Contributions Plan 2015, for one (1) dwelling is to be paid to Council. At the time of this development consent, the current rate of the contribution is **\$4,530** for open space, **\$4,443** for Community Facilities, **\$713.00** for roads and traffic and **\$164.00** for administration, totalling **\$9,850**. The amount of the contribution will be determined at the time of payment in accordance with the relevant Contributions Plan in force at that time. A copy of the Pemulwuy Contributions Plan 2015 can be viewed on Council's website at www.cumberland.nsw.gov.au or inspected at Council's Civic Centre located at 16 Memorial Avenue, Merrylands between the hours of 8am and 4.30pm Monday to Friday.

Damage Deposit

11. A cash bond/bank guarantee of **\$1,780.00** must be paid/lodged with Council to cover making good any damage caused to the property of Council, during the course of construction associated with the development. This will be held for 'six (6) months after the completion of works' or six (6) months after the issue of 'Final Occupation Certificate' (whichever occurs last) to remedy any defects that may arise within this time.

Note:- The applicant/owner shall be held responsible for and may be required to pay the full reinstatement costs for damage caused to Council's property unless the applicant/owner notifies Council in writing and provides photographic proof of any

existing damage to Council's property. Such notification shall occur prior to works/demolition commencing. However, if in the opinion of Council, during the course of construction existing damage has worsened, Council may require full reinstatement. If damage does occur during the course of construction, prior to reinstating any damage to Council's property, the applicant/owner shall obtain design specifications of all proposed restoration works. Restoration/construction works within the road reserve shall be carried out by a licensed construction contractor at the applicant/owners expense and shall be inspected by Council prior to placement of concrete and/or asphalt.

Consistency with Endorsed Development Consent Plans

12. The Principal Certifying Authority must ensure that any certified plans forming part of the Construction Certificate, are in accordance with the Development Consent plans.

Landscape Inspection Fee

13. Payment of a **\$231.00** fee for the inspection by Council of landscape works and/or trees to be retained at the key stages, where Council is the Principal Certifying Authority.

Road Works

14. If demolition/construction activity will impact on traffic flow or pedestrian access or any road and drainage works are proposed to be carried out in the public road reserves, a Traffic Management Plan shall be lodged with and approved by Council, in strict compliance with the current Australian Standard 1742.3 (Traffic Control Devices for Works on Roads). If required to be prepared (to be determined by the Principal Certifying Authority), a copy of the approved Traffic Management Plan shall be kept on site during the course of construction for reference and compliance.

Required Submissions to Certifying Authority

15. Retaining walls greater than 1.0m above finished ground level or other approved methods necessary to prevent the movement of excavated or filled ground, together with associated stormwater drainage measures, shall be designed by an appropriately qualified person. Details are to be included with any Construction Certificate application.
16. Structural engineer's details prepared and certified by a practising qualified structural engineer of all reinforced concrete and structural members shall be submitted to the Principal Certifying Authority.
17. If the development likely to disturb or impact upon telecommunications infrastructure, written confirmation from the service provider that they have agreed to the proposed works must be submitted to the Principal Certifying Authority prior to the issue of a Construction Certificate or any works commencing, whichever occurs first.
18. The arrangements and costs associated with any adjustment to telecommunications infrastructure shall be borne in full by the applicant/developer.

Salinity

19. The site has been identified as having a potential salinity hazard. To prevent moisture/salinity from entering the built structure, appropriate construction methods are to be incorporated for all dwellings/buildings.

Details of proposed methods of construction are to be detailed in the engineering plans and submitted to the PCA.

Note: Further information for building in a saline environment is available in the following documents:

“Building in Saline Environment” prepared by DIPNR 2003.

Water Sensitive Urban Design in the Sydney Regions “Practice Note 12: Urban Salinity”

Wagga Wagga City Council’s “Urban Salinity Action” October 1999

“Guide to Residential Slabs and Footings in Saline Environments” prepared by Cement Concrete and Aggregates Australia, May 2005.

Sydney Water

20. A building plan approval must be obtained from Sydney Water Tap In™ to ensure the development will not affect any sewer, water or stormwater mains or easements.

A copy of the building plan approval receipt from Sydney Water must be submitted to the certifying authority, prior to the issue of a construction certificate.

Please go to sydneywater.com.au/tapin to apply.

PRIOR TO WORKS COMMENCING

The following conditions are to be complied with prior to demolition / any works commencing on the site:

Appointment of Principal Certifying Authority and Notification of Commencement of Work

21. The person having the benefit of the development consent, not the principal contractor (builder), must:
- a) Appoint a Principal Certifying Authority in accordance with Section 6.6 of the Act.
 - b) Have the Principal Certifying Authority complete the 'Accredited Certifier Details' on the approved form provided by Council for this purpose, an original of which is attached to this Development Consent.
 - c) Notify Council of the appointment of the Principal Certifying Authority and of the intention to commence building work, such notification is to be given to Council at least two (2) working days prior to the proposed commencement date, and be on the approved form provided by Council for this purpose, an original of which is attached to this Development Consent.

If nominated, Council can provide this service for you and act as the Principal Certifying Authority.

N.B. The Principal Certifying Authority must also notify the person having the benefit of the Development Consent of any mandatory critical stage inspections and other inspections that are to be carried out in respect of the building work such notification must comply with Clause 103A of the Regulations.

Notification of Principal Contractor (Builder)/Owner-Builder

22. The person having the benefit of the Development Consent must:
- (a) Notify the Principal Certifying Authority that the person will carry out the work as an owner-builder, if that is the case;
- OR
- (b) Appoint a Principal Contractor for the building work (who must be the holder of a contractor licence if any residential building work is involved), and notify the Principal Contractor of any mandatory critical stage inspections and other inspections that are to be carried out in respect of the building work.
 - (c) Notify the Principal Certifying Authority of any such appointment.

Where Council is the Principal Certifying Authority, such notification is to be on the approved form provided by Council for this purpose, an original of which is attached to this Development Consent.

Photographic Record of Council Property – Damage Deposit

23. The applicant shall submit to Council, for the purposes of the damage deposit bond lodged to cover making good any damage caused to the property of Council, a full and satisfactory photographic record of the condition of Council's property (i.e., road pavement, kerb and guttering, footway, stormwater drainage, etc.) adjacent to the subject site. The purpose of the photographic record is to establish any pre-existing damage to Council's property to ensure that you are not liable for any re-instatement works associated with that damage. However, if in the opinion of Council, the existing damage has worsened or any new damage is caused during the course of construction, the Council may require either part or full re-instatement.

Note: Failure to provide a full and satisfactory photographic record described above, is likely to render the applicant liable to rectify all damages unless satisfactory proof can be provided that the damage was pre-existing.

Required Submissions to Council or the Principal Certifying Authority

24. To facilitate a complete assessment and enable the Certifying Authority to check compliance on site, truss validation and design, details certified by a qualified practicing structural engineer shall be submitted to Council or the Principal Certifying Authority for examination and approval. Details shall include:
- a) job address and builder's name
 - b) design wind velocity
 - c) terrain category
 - d) truss spacing
 - e) roof pitch
 - f) material of roof
 - g) roof batten/purlin spacing
 - h) material of ceiling
 - i) job number

Notification to Relevant Public Authority

25. The applicant shall ensure that relevant public utility authorities are made aware of the salinity problems that have been identified within the subject site by the Department of Land and Water Conservation, such that their services are designed to take into consideration the effects the saline soils may have on their installations.

Fencing of Sites

26. Fencing of sites is required to prevent public access when the site is unoccupied and building works are not in progress. In this regard the MINIMUM acceptable standard of fencing to the site is properly constructed chain wire fencing 1.8m high, clad internally with Hessian or Geotextile fabric. All openings are to be provided with gates, such gates are not at any time to swing out from the site or obstruct the footpath or roadway.

Signs to be Erected on Sites

27. A sign must be erected in a prominent position on any site on which building work, subdivision work or demolition work is being carried out:
- (a) Showing the name, address and telephone number of the Principal Certifying Authority for the work, and

- (b) Showing the name of the principal contractor (if any) for any building work and a telephone number on which that person may be contacted **outside working hours and at any time for business purposes**, and
- (c) Stating that unauthorised entry to the work site is prohibited.

The sign must be rigid and durable and be read easily by anyone in any public road or other public place adjacent to the site.

Any such sign is to be maintained while the building work, subdivision work or demolition work is being carried out, but must be removed when the work has been completed.

This clause does not apply in relation to building work, subdivision work or demolition work that is carried out inside an existing building that does not affect the external walls of the building.

Note: Principal Certifying Authorities and Principal Contractors must also ensure that signs required by this clause are erected and maintained (clause 227A of the Regulations currently imposes a maximum penalty of \$1,100).

Prohibited Signage

- 28. Advertising, Real Estate Agents, Architects, Designers, site suppliers and any other signage not mentioned in the conditions, is not to be placed or displayed on the site, such that the signage is visible from any public place. Offenders may be prosecuted.

Protection of Public Places

- 29. A hoarding or fence must be erected between the work site and any public place, if the work involved in the erection or demolition of the building; is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient, or involves the enclosure of a public place.

If necessary, an awning is to be erected, sufficient to prevent any substance from, or in connection with, the work falling into the public place.

The work site must be kept lit between sunset and sunrise if it is likely to be hazardous to persons in the public place.

Site Control Measures

- 30. Suitable erosion and sediment control measures shall be provided at all vehicular entry/exit points and all other measures required with and/or shown on plans accompanying the Construction Certificate, to control soil erosion and sedimentation, are to be in place prior to the commencement of construction works. Such controls are to be provided in accordance with Holroyd's "Erosion & Sediment Control Policy."

Note: On-the-spot fines may be issued by council where measures are absent or inadequate.

Footpaving, Kerbing and Guttering

31. Protection must be provided for Council footpaving, kerbing and guttering. Wooden mats must also be provided at all entrances where the site fronts paved footpaths.
32. Finished street levels shall not be assumed. The owner or builder must make application to Council's Engineering Services Department for street levels.

Support for Neighbouring Buildings

33. If an excavation associated with the erection of a building extends below the level of the base of the footings of a building on an adjoining allotment of land (including a public road and any other public place), the person causing the excavation to be made:-
 - a) Must preserve and protect the building from damage, and
 - b) If necessary, must underpin and support the building in an approved manner, and
 - c) Must, at least seven (7) days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars to the owner of the building being erected or demolished.

The owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this clause, whether carried out on the allotment of land being excavated or on the adjoining allotment of land. (In this clause, *allotment of land* includes a public road and any other public place).

Toilet Facilities

34. Toilet facilities are to be provided, at or in the vicinity of the work site on which work involved in the erection or demolition of a building is being carried out, at the rate of one toilet for every 20 persons or part of 20 persons employed at the site.

Each toilet provided:

- a) Must be a standard flushing toilet, and
- b) Must be connected:
 - i) To a public sewer,
 - ii) If connection to a public sewer is not practicable, to an accredited sewage management facility approved by the Council, or
 - iii) If connection to a public sewer or an accredited sewage management facility is not practicable, to some other sewage management facility approved by the Council.
 - iv) The position of the toilet on the site shall be determined by Council's Building Surveyor and/or Sydney Water.

Residential Building Work - Insurance

35. Residential building work within the meaning of the *Home Building Act 1989* must not be carried out unless the Principal Certifying Authority for the development to which the work relates (where not Cumberland Council) has given Cumberland Council written notice of the following information:-
 - (a) In the case of work for which a Principal Contractor is required to be appointed:

- (i) The name and licence number of the Principal Contractor, and
 - (ii) The name of the insurer by which the work is insured under Part 6 of that Act,
- (b) In the case of work to be done by an owner-builder:
- (i) The name of the owner-builder, and
 - (ii) If the owner-builder is required to hold an owner-builder permit under that Act, the number of the owner-builder permit.

If arrangements for doing the residential building work are changed while the work is in progress so that the information notified under this condition becomes out of date, further work must not be carried out unless the Principal Certifying Authority for the development to which the work relates (where not Cumberland Council) has given Cumberland Council written notice of the updated information.

The notification is to be on the approved form provided by Council for this purpose, an original of which is attached to this Development Consent.

Roadworks

- 36. The applicant is to submit an application for a road opening permit when the drainage connection into Council's system is within the road reserve, including payment of the appropriate fee prior to the commencement of works. Additional road opening permits and fees may be necessary where there are connections to public utility services (e.g. telephone, electricity, sewer, water or gas) are required within the road reserve.
- 37. The applicant to arrange with the relevant public utility authority the alteration or removal of any affected services in connection with the development. Any such work being carried out at the applicant's cost.

Works Within Council's Reserve

- 38. All works within the Council reserve shall be completed within three (3) weeks of the date of commencement. Council's Development Engineer shall be advised prior to the commencement of works.
- 39. Submission to Council of a Certificate of Currency of the contractor's Workers' Compensation Policy prior to the commencement of works.
- 40. All construction works shall be in accordance with the WorkCover safety requirements. Submission of insurance documentation demonstrating a minimum Public Liability cover of \$10,000,000 is to be submitted prior to commencement of works. Cumberland Council shall be named on the Certificate of Currency as an interested party.

DURING CONSTRUCTION

The following conditions are applicable during demolition / construction:

Endorsed Plans & Specifications

41. A copy of the endorsed stamped plans and specifications, together with a copy of the Development Consent, Construction Certificate and approved Traffic Management Plan are to be retained on site at all times.

Hours of Work & Display of Council Supplied Sign

42. For the purpose of preserving the amenity of neighbouring occupations building work including the delivery of materials to and from the site is to be restricted to the hours of 7.00am to 6.00pm Mondays to Fridays and 8.00am to 4.00pm Saturdays. Work on the site on Sundays and Public Holidays is prohibited. **Note: Demolition work is not permitted on weekends or Public Holidays - refer to specific demolition condition for approved hours.**

The yellow "Hours of Building Work" sign (supplied by Council with the approval), is to be displayed in a prominent position at the front of the site for the duration of the work.

Site Control

43. All soil erosion measures required in accordance with the approved sediment and erosion control plan and any other relevant conditions of this Consent are to be put in place prior to commencement of construction works and are to be maintained during the entire construction period until disturbed areas are restored by turfing, paving or revegetation. This includes the provision of turf laid on the nature strip adjacent to the kerb.
44. Builder's refuse disposal and storage facilities are to be provided on the development site for the duration of construction works and all rubbish shall be removed from the site upon completion of the project.
45. Stockpiles of sand, soil and other material shall be stored clear of any drainage line or easement, tree protection zone, water bodies, footpath, kerb or road surface and shall have erosion and sediment control measures in place to prevent the movement of such materials onto the aforementioned areas and adjoining land.

Waste Management Plan

46. The approved Waste Management Plan must be implemented and complied with during all stages of works on site.
47. Within seven (7) days of completion of construction/building works, the applicant shall submit a signed statement to Council or the Principal Certifying Authority verifying that demolition work and recycling of materials was undertaken in compliance with the Waste Management Plan. The Principal Certifying Authority shall submit a copy of the statement to Council.

In reviewing such documentation Council will require the provision of actual weighbridge receipts for the recycling/disposal of all materials.

Compliance with Critical Stage Inspections and other Inspections nominated by the Principal Certifying Authority

48. Section 6.5 of the Act requires certain specific inspections (prescribed by clause 162A of the Regulations) and known as 'Critical Stage Inspections' to be carried out for building work. Prior to permitting commencement of the work your Principal Certifying Authority is required to give notice of these inspections pursuant to clause 103A of the Regulations.

N.B. An Occupation Certificate cannot be issued and the building may not be able to be used or occupied where any mandatory critical stage inspections or other inspections required by the Principal Certifying Authority are not carried out.

Where Council is nominated as Principal Certifying Authority, notification of all inspections required is provided with the Construction Certificate approval.

Construction

49. The building and external walls are not to proceed past ground floor formwork/reinforcing steel level until such time as the Principal Certifying Authority has been supplied with a check survey report prepared by a registered surveyor certifying that the floor levels and external wall locations to be constructed, comply with the approved plans, finished floor levels (FFL)s and setbacks to boundary/ies. **The slab shall not be poured, nor works continue, until the Principal Certifying Authority has advised the builder/developer that the floor level and external wall setback details shown on the submitted survey are satisfactory.**

In the event that Council is not the Principal Certifying Authority, a copy of the survey shall be provided to Council within three (3) working days.

On placement of the concrete, works again shall not continue until the Principal Certifying Authority has issued a Certificate stating that the Condition of approval has been complied with and that the slab has been poured at the approved levels.

Salinity

50. The building and external walls are not to proceed past ground floor formwork/reinforcing steel level until such time as the Principal Certifying Authority has confirmed that all required construction measures addressing salinity, as required by this Consent and its accompanying Construction Certificate have been carried out.

Landscaping/Site Works

51. All turfed areas shall be finished level with adjoining surfaces and also fall evenly to approved points of drainage discharge.
52. New 1.8m high lapped and capped timber paling or colorbond fences (colour to be sympathetic with the development) determined in consultation with adjoining property owner(s), are to be erected along and within the side and rear boundaries at full cost to the developer, such fencing to be constructed on or within the property boundary. In situations where the boundary fence is proposed on top of a retaining wall, the height of the fence shall not exceed a maximum of 2.4m as measured from the lower adjacent ground level. A Statutory Declaration or other documentary evidence of such consultation is to be submitted to the Principal Certifying Authority.

Tree Protection

53. The applicant shall accept all responsibility for the accuracy of the information provided to Council for assessment. If any tree/s are not shown on the endorsed plan or are required to be retained and protected but are threatened by demolition/construction work through unforeseen construction requirements or plan inaccuracy, all site and building works so affected are to cease until the matter is resolved to the satisfaction of Council. Council's Environmental and Planning Services Department is to be notified immediately upon such a problem being encountered.

Road Works and Footpaving

54. Pedestrian access, including disabled and pram access, is to be maintained as per Australian Standard AS1742.3 "Part 3 – Traffic Control Devices for Works on Roads".
55. All advisory and regulatory sign posting (for example parking restriction signage, pedestrian crossing signs, warning signs) are to remain in place during construction.

Communications Cabling

56. All communications cabling shall be installed as per relevant authority requirements (including broadband and Category 5).

Power Connection

57. Power connection to the site is to be either underground or through an intermediate power pole as per relevant authority requirements.

Rainwater Tank

58. The design of any aboveground rainwater tank(s) should allow a horizontal clearance of at least 450mm for pedestrian movement. The tank(s) must not exceed 2.4 metres in height above ground level, including any stand for the tank(s).

Vehicle Cleansing

59. Concrete trucks and trucks used for the transportation of building materials shall not traffic soil, cement or similar materials onto the road. Hosing down of vehicle tyres shall be conducted in a suitable off-street area where wash water is prevented from entering the stormwater system or adjoining property.

Importation of Fill

60. All imported fill shall be validated in accordance with Council's Contaminated Land Policy to ensure that it is suitable for the proposed land use from a contamination perspective.

Stormwater Drainage

61. The stormwater drainage system shall be constructed in accordance with Section 7, Part A of the Holroyd Development Control Plan 2013.

Additional Information during Demolition/ Construction

62. Any new information which comes to light during demolition or construction works which has the potential to alter previous conclusions about site contamination shall be notified to Council immediately.

PRIOR TO ISSUE OF A FINAL OCCUPATION CERTIFICATE

The following conditions are to be complied with prior to the issue of a final occupation certificate:

Certificates/Documentary Evidence

63. A Structural Engineer's certificate from the supervising structural engineer responsible for the design shall be submitted to the Principal Certifying Authority and shall state that all foundation works/reinforced concrete/structural members have been carried out/erected in accordance with the Engineer's requirements and the relevant SAA Codes.

Note: Any such certificate is to set forth the extent to which the engineer has relied on relevant specifications, rules, codes of practice or publications in respect of the construction.

Landscaping/Tree Protection

64. Certification is to be provided to the Principal Certifying Authority (PCA), from a suitably qualified person of the landscape proposal, that all tree planting/landscape works have been carried out in accordance with the endorsed plan. If Council **is** the PCA, the certification is to be submitted to Council prior to or at the final landscape inspection. If Council **is not** the PCA, a copy of the certification is to be provided to Council with the Occupation Certificate.

Parking/Driveway

65. The vehicle crossing between the street and front boundary shall be constructed of plain concrete with no colour or stencilling.

Road Works

66. Any works requiring levels within the road reserve will require the submission of Council's Vehicle Crossing application form.
67. A full width **residential** duty vehicular crossing shall be provided opposite the shared vehicular entrance for the development, with a minimum width of **3m** at the boundary line. These works shall be carried out by a licensed construction contractor at the applicant's expense and shall be in accordance with Council's issued drawings and level sheets.
68. A certificate of compliance for the construction of the vehicular crossing/s, footpath paving, kerb and guttering, roadworks and stormwater drainage shall be obtained from Council and be submitted to the Principal Certifying Authority.

General

69. Documentary evidence and/or certificate of compliance must be submitted to Council to show that all works have been completed in accordance with this Development Consent and its accompanying Construction Certificate.

CONDITIONS RELATING TO USE

The following conditions are applicable to the use of the development:

Safety and Amenity

70. Where an intruder alarm is installed on the premises it shall be fitted with a timing device in accordance with the requirements of the Protection of the Environment Operations Act 1997.

Noise

71. The operation of the pump from the rainwater tank shall not give rise to an equivalent continuous (LAeq) sound pressure level at any point on any residential property greater than 5dB(A) above the existing background LA90 level (in the absence of the noise under consideration). Council may require an Acoustic Report to be submitted, prepared by a suitably qualified person, to ensure this requirement is met in the event of Council receiving complaints.
72. The operation of all plant and equipment shall not give rise to an equivalent continuous (LAeq) sound pressure level at any point on any residential property greater than 5dB(A) above the existing background LA90 level (in the absence of the noise under consideration).
73. Noise and vibration from the use of the air conditioning system (if any installed) shall not exceed the background level by more than 5dB(A) and shall not be audible in any premises of a different occupancy between 10:00pm and 7:00am on weekdays and 10:00pm and 8:00am on weekends and public holidays.

General

74. All privacy measures as required by this development consent shall be maintained for the lifetime of the development and shall not be altered without prior approval of Council.

ADVISORY NOTES

Other Necessary Approvals

- A. The applicant's attention is drawn to the need to obtain Council's separate approval for any ancillary activity not approved by this consent, including:
- (a) Works, including the pruning or removal of any tree(s) not authorised in the preceding conditions or on the approved plans. Council's Tree Preservation Order protects trees by definition taller than 3.5m or having a trunk circumference exceeding 500mm measured one metre above ground level. If in doubt contact Council's Tree Management Officer.
 - (b) Any fencing located forward of the proposed building and exceeding the limitations specified in the State Environmental Planning Policy (Exempt and Complying Development Codes) 2008.
 - (c) The erection of any advertising sign, not being exempt from the need to obtain approval.
 - (d) The installation of any furnace, kilns, steam boiler, chemical plant, sand blast, spray painting booth or the like.
- B. If you carry out building work as an owner builder and sell your home within seven (7) years from the date of completion (date of final occupation certificate), then a Certificate of Insurance must be attached to your Contract of Sale.
- C. Modifications to the approved plans will require the lodgement and consideration by Council of a modification application pursuant to Section 4.55 of the Environmental Planning and Assessment Act 1979.
- D. Section 8.7 of the Act provides that an applicant who is dissatisfied with the Council's determination of the Development Application may appeal to the Land and Environment Court within six (6) months of the date of determination, or as otherwise prescribed.
- E. Section 8.3 of the Act provides that an applicant may request, within six (6) months of the date of determination of the Development Application, that the Council review its determination (this does not apply to designated development). A fee is required for this review.

It should also be noted that an application under Section 8.3 of the Act cannot be reviewed/determined after 6 months of the date of determination. Therefore, the submission of a Section 8.3 Application must allow sufficient time for Council to complete its review within the prescribed time frame, including the statutory requirement for public notification.

F. DIAL BEFORE YOU DIG

Underground assets may exist in the area that is subject to your application. In the interests of health and safety and in order to protect damage to third party assets please contact Dial before you dig at www.1100.com.au or telephone on 1100 before excavating or erecting structures (This is the law in NSW). If alterations are required to the configuration, size, form or design of the development upon contacting the Dial before You Dig service, an amendment to the development consent (or a new development application) may be necessary. Individuals owe asset owners a duty of care that must be observed when working in the vicinity of plant or assets. It is the individual's responsibility to anticipate and request the nominal location of plant or assets on the relevant property

via contacting the Dial before you dig service in advance of any construction or planning activities.

G. A Construction Certificate shall be obtained in accordance with Section 6.7 of the Act, prior to the commencement of any work on site. Council can provide this service for you.

H. An Occupation Certificate is to be issued by the Principal Certifying Authority prior to the occupation of the building.

I. CONSTRUCTION/OCCUPATION CERTIFICATE FEES

An administration fee per certificate (in accordance with Council's adopted fees and charges) is payable to Council on lodgement of Construction and Occupation Certificates from Principal Certifying Authorities.

J. BANK GUARANTEES

Bank guarantees will be accepted from list of banks which have at least an "A" rating from Standard and Poors and at least an "A2" or "Prime-1" standard from Moodys Investor Services.

To enable the bank guarantee to be enforceable during an entire project with consideration for delays, **the guarantee must not contain a facility expiry date.**

To get to Standard and Poors www.standardpoors.com then from Ratings Action choose Ratings Lists. Then click on Financial Institutions followed by clicking on Financial Institutions Counterparty Ratings List. Go to "**Banks**" and download to Australian Banks.

To get to Moodys www.moodys.com then look up Ratings and then Banking and then Bank Ratings list. It will take you to Bank Credit Research page. Look at the table of contents and choose Global Bank Ratings by Country. Look up Australian Banks.

K. SMOKE DETECTORS

A system of self-contained smoke alarms complying with the requirements of *AS3786-1993, Smoke Alarms* or listed in the *Scientific Services Laboratory Register of Accredited Products* being installed in the dwelling, connected to the mains power supply and provided with a standby power supply. Alarms are to be positioned on the ceiling and setback a minimum distance of 300mm from any wall. Alarms are to be placed in the vicinity of each area containing bedrooms with a minimum of one (1) alarm required for each storey of the dwelling.

L. TERMITE PROTECTION

Structural members are to be protected from attacked by subterranean termites in accordance with the requirements of *AS3660.1-2000 Protection of building from subterranean termites* and a durable notice must be affixed within the metre box indicating the type of protection, its date of installation, life expectancy of any chemical barrier used, and system maintenance and inspection requirements. A certificate of compliance of the approved system must be submitted to Council or the Principal Certifying Authority on completion of the system installation. With respect to chemical protection, a pipe system shall be installed beneath the slabs plastic membrane to allow re-application of the chemical border.

M. WET AREAS

Wet areas in the dwelling are to be waterproofed in accordance with AS3740 *Waterproofing of wet areas within residential buildings*.

Where Council is the Principal Certifying Authority for the works, the submission of evidence of suitability for the waterproofing product used will be required at the wet area inspection stage. The evidence of suitability is to be in the form of:-

1. A current Certificate of Accreditation for the product.

AND

2. A certificate from the person responsible for the installation of the product advising that the product was applied in accordance with the relevant manufacturers specifications.

Note: Any copy of documentary evidence submitted, must be a complete copy of the original report or document.

N. LANDINGS

A landing having a minimum length of 750mm and a grade no steeper than 1:50, must be provided where the sill of a threshold of a doorway opens onto a stair that provides a change in floor level or floor to ground level greater than 3 risers or 570mm in accordance with Clause 3.9.1.3 (Stair Construction) of the Building Code of Australia.

O. SOUND TRANSMISSION AND INSULATION

To ensure the amenity of occupants in attached residential development (Class 1 buildings), separating walls must be constructed in accordance with Part 3.8.6 of the Building Code of Australia.

P. GLAZING CERTIFICATION

A certificate shall be submitted to the Principal Certifying Authority stating that safety glazing has been used in the building in accordance with AS1288 - "Glass in Buildings - Selection and Installation".

Q. TELECOMMUNICATIONS ACT 1997 (COMMONWEALTH)

Telstra (and its authorised contractors) are the only companies that are permitted to conduct works on Telstra's network and assets. Any person interfering with a facility or installation owned by Telstra is committing an offence under the Criminal Code Act 1995 (Cth) and is liable for prosecution.

Furthermore, damage to Telstra's infrastructure may result in interruption to the provision of essential services and significant costs. If you are aware of any works or proposed works which may affect or impact on Telstra's assets in any way, you are required to contact Telstra's Network Integrity Team on Phone Number 1800810443.

R. DIVIDING FENCES

Please be advised that arrangements concerning existing or proposed fences between properties are a civil matter determined by the involved parties under the [Dividing Fences Act](#). You are therefore required to consult with the owners of neighbouring properties if fences are to be removed or constructed.

The Dividing Fences Act is administered by the [Department of Lands](#) who can act as a mediator in disputes.

Yours faithfully

Jai Shankar
