A. PURPOSE OF STATEMENT

This statement has been prepared to assess potential heritage impacts of a planning proposal for a new residential flat development on the land.

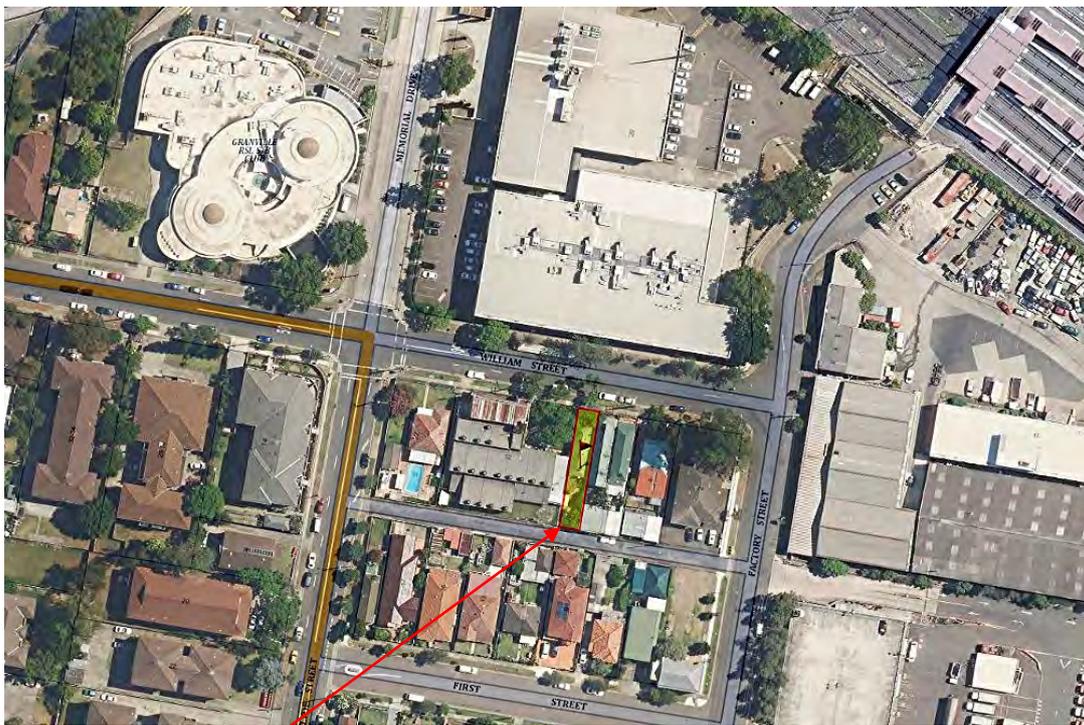

B. GROUNDS OF STATEMENT

10 William Street Granville is listed as part of a heritage item. This has been established through a search Schedule 5 of Parramatta LEP 2011. There are also items within the vicinity at 6-8 Factory St, and the Granville RSL Club on Memorial Drive.

C. LIMITS OF STATEMENT

This statement is based on SHI data sheets 2240621, 2240176, 2245078, the material at Part E1 and an inspection of the site on 3 occasions in May, June and December 2015.

D. LOCATION

1. Location of 10 William Street Granville (Source: SIX Maps © NSW Lands 2015).

E. CONTEXT

E1. DOCUMENTARY

10 William St Granville-Inventory Sheet 2240621

The item is described as:

Originally a group of three single fronted single storey cottages, now only No. 10 survives. No. 10 is a weatherboard cottage with hipped roof clad with corrugated iron and bullnosed front verandah. The verandah is supported on turned timber posts, and has concrete floor and corrugated iron roof. Weatherboards are partly replaced with vinyl cladding. Timber picket fence and gate. Front door is modern.

Its significance is stated as:

The cottage at 10 William Street is of significance for the local area for historical and reasons of representativeness, as an example of modest workers cottages in the area built c. 1900.

2. Photograph- SHI Data 2240621.

3. 10 William St –Thumbnail only.

The historical notes are:

Land auctioned for Hudson Brothers as "Clyde" in December 1884. An earlier building had been erected on lot 29 by 1914. Between 1914 and 1929, this building was removed and all three cottages built. Lots 27 & 28 held by John Fergus until his death in 1919. Lot 29 devised to Roseanna Young, wife of D'arcy [sic] Young, Leichhardt, tram driver in 1915. She took out two mortgages over the land in April 1916 which probably financed the erection of the cottage (No. 6 - not included in listing) The other two cottages appear to have been built for Fergus at the same time. National Trust (Parramatta Branch): Land auctioned as "Clyde" in December 1884. An earlier building had been erected on lot 29 by 1914. Between 1914 and 1929, this building was removed and and [sic] all three cottages built. Lots 27 and 28 held by John Fergus until his death in 1919. Lot 29 devised to Rosanna Young, wife of D'arcy [sic] Young, Leichhardt tram driver in 1915. She took out two mortgages over the land in April 1916 which probably financed the erection of the cottage (NO 6 not included in listing.)The other two cottages appear to have been built by Fergus at the same time.

Land Titles

The land is part of a 250 acre grant to William Lawson and William Charles Wentworth of 29th January 1840.

It was converted to Real Property by Henry Hudson, Robert Hudson and William Hudson under Primary Application N^o 7198, dated 14th December 1887. It was subsequently subdivided under Deposited Plan 2371, dated 6th Sept 1889.

The land of which the subject property forms part was transmitted to The Perpetual Trustee Company in October 1892 (Certificate of Title Volume 1072 Folio 164 [CT 1072-164]), and Lots 27 and 28, Section 2 sold to John Fergus of Clyde, storekeeper, in January 1893. CT 1089-72 was issued to Fergus in January 1893 and he held the land until it was transmitted to his widow, Margaret Fergus, in September 1919. It was transmitted to Mary Josephine Anschau in November 1942, and then transmitted to Constance Helen Denning and Margaret Caroline Fergus in October 1948. It was sold to Ernest William Saunders of

Turramurra, freeholder, in April 1950 and then sold to Eileen Floyd in October 1953. Floyd sold Lot 28 to - Vinny Jessie Young in October 1953, but held Lot 27 for which CT 6757-99 was issued in December 1953. Lot 27 was transmitted to Douglas Eric Floyd in November 1982 and he sold it to Douglas Campbell Laughton in May 1984.

The title was converted to Computer Folio in November 1989, and the property was again transmitted in September 1991. There have been 5 transfers since, the most recent being in January 2015.

Sands Directory

John Fergus is listed as residing in William St as of the alphabetical listing of 1893, though the precise location is difficult to determine. There were three residents between Factory and Clyde Streets, and he was the middle one. He is listed as resident on the south side of William St as of 1900, but appears to have moved to Factory Street (on the corner of William Street) Granville by 1905.

6-8 Factory Street Granville- Inventory Sheet 2240176

This item is described as:

The building is a two-storey former shop, now occupied as two dwellings, built of brick rendered and ashlar marked to front facade, with side walls of brick in garden bond. Its features include a gabled roof covered with new galvanised iron, facade with evidence of former painted advertising signage, the roof hipped to front and gabled and with an extended skillion at rear, clad in corrugated iron. An external brick chimney with step survives. Windows have Soldier brick flat arches. The doors to front and side have Soldier flat arches and transom lights.

The historical notes are:

Land auctioned as "Clyde" on 13 December 1884 for the Hudson Brothers, who built their engineering works adjacent. Land sold in late 1890 to Charles Augustus Runge, tobacconist, of Granville who built this shop with a mortgage for £300 taken out in October 1890. Runge had been one of the butchering partnership known as Runge Brothers in the 1880s, but had withdrawn from the firm by 1890. Occupied by 1912 as dining rooms by Mrs Maria Bower & George Bonnor. National Trust (Parramatta Branch): Land auctioned as "Clyde" 13th December 1884 for Hudson Bros. who built their engineering works adjacent. Land sold in 1890 to C. Runge who built this shop in 1890. | Occupied by Mrs. Maria Bower and George Bonnor as dining rooms.

Its significance is stated as:

The former shop at 6 Factory Street is of significance for Parramatta for historical and aesthetic reasons, and as a representative example of Victorian shops in the area. The building is very prominent in the streetscape and strongly contributes to its character.

No image is provided, but the following were taken on 1 December 2015:

4. The former shop from cnr. Factory and First Sts.

5. The former shop (rear) from Factory Street.

The building is currently in use as the Granville Multicultural Centre, and has been painted externally in a polychromatic mural depicting various cultural items.

Granville RSL- Inventory Sheet 2245078

This item is described as:

The RSL building was built on a curvilinear/circular plan form with domed concrete roofs influenced by free organic planned concrete buildings of 1950s. Sloping walls are oversailed by bevelled concrete roofs with plain wall areas and clerestory lights. The building has a later porte cochere addition [sic]. The propeerty [sic] features modern metal fencing.

The historical notes are:

Construction commenced in 1961. It was opened on 22 September 1964 followed by the official opening on 14 November 1964.

Its significance is stated as:

Granville RSL is of significance for Parramatta LGA for its social importance to the local residents and for its association with the returned servicemen.

E2. PHYSICAL

The place was inspected on the 15th and 22nd May and 1 December 2015, when the following photographs were taken:

7. 10 William St- entry gate and side passage.

8. 10 William St- picket fence and verandah.

9. 10 William St- from the north-east.

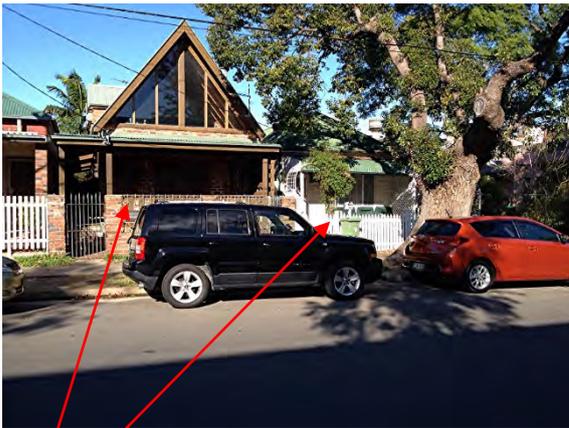

10. 10 William St from opposite.

The cottage has been clad in vinyl siding, the roof and rainwater goods re-done in colorbond, the windows replaced and introduced in clear anodised aluminium, the doors have been replaced in replica panelled leaves, and the interior lined in plasterboard.

There are fragments of what appear to be original fabric in one remaining turned timber post to the verandah (reproduction?), possibly the verandah beam and the western verandah lining.

Presumably the frame may be original, though this is difficult to assess without intrusive investigation.

11. 8 & 10 William St.

12. Cottages to the east.

13. Former Factory site to the west.

14. West wall of 10 William St. Reproduction post.

The white picket fence to the street boundary is a reproduction fence that is currently in a state of decay, and was erected in the past 20-25 years.

15. Rear wall of 10 William St.

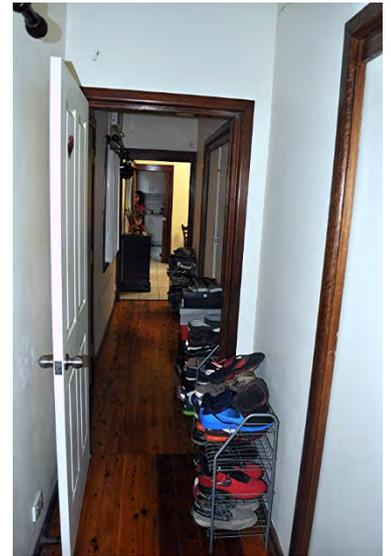

16. Back Yard-10 William St.

17. Turned post, lattice.

18. East wall. Vinyl siding.

19. Hallway to Kitchen.

20. Kitchen.

21. Bathroom/ Laundry.

22. Hallway- front door

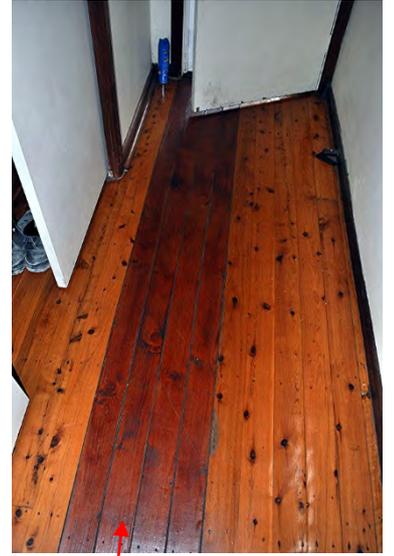

All internal linings are relatively recent, and there are no fireplaces/ copper chimney stacks which would have been the sole source of heating/ cooking/ washing for a cottage of the era attributed.

It also appears that the room layouts have been changed, together with the fenestration to the east wall, and the bedroom entrances- which are sets of double sliding doors.

There are also no remnant fitments or joinery trim.

23. Lounge Room- plasterboard wall and ceiling linings.

24. Remnant floor boards (?).

25. Computer model of the proposed development.

26. Site of the proposed development.

<p>(2) Requirement for consent</p>	
<p><i>Development consent is required for any of the following:</i></p> <p>(a) <i>demolishing or moving any of the following or altering the exterior of any of the following (including, in the case of a building, making changes to its detail, fabric, finish or appearance):</i></p> <p>(i) <i>a heritage item,</i></p> <p>(ii) <i>an Aboriginal object,</i></p> <p>(iii) <i>a building, work, relic or tree within a heritage conservation area,</i></p> <p>(b) <i>altering a heritage item that is a building by making structural changes to its interior or by making changes to anything inside the item that is specified in Schedule 5 in relation to the item,</i></p> <p>(c) <i>disturbing or excavating an archaeological site while knowing, or having reasonable cause to suspect, that the disturbance or excavation will or is likely to result in a relic being discovered, exposed, moved, damaged or destroyed,</i></p> <p>(d) <i>disturbing or excavating an Aboriginal place of heritage significance,</i></p> <p>(e) <i>erecting a building on land:</i></p> <p>(i) <i>on which a heritage item is located or that is within a heritage conservation area, or</i></p> <p>(ii) <i>on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance,</i></p> <p>(f) <i>subdividing land:</i></p> <p>(i) <i>on which a heritage item is located or that is within a heritage conservation area, or</i></p> <p>(ii) <i>on which an Aboriginal object is located or that is within an Aboriginal place of heritage significance.</i></p>	<p>It is proposed to demolish a building that is listed as part of a heritage item, “William Street Cottages Group”.</p> <p>The place is not identified as having archaeological potential.</p> <p>The place is not identified as one of Aboriginal heritage significance.</p> <p>It is proposed to amalgamate the lots.</p>

<p><i>However, development consent under this clause is not required if:</i></p> <p>(a) <i>the applicant has notified the consent authority of the proposed development and the consent authority has advised the applicant in writing before any work is carried out that it is satisfied that the proposed development:</i></p> <p>(i) <i>is of a minor nature or is for the maintenance of the heritage item, Aboriginal object, Aboriginal</i></p>	<p>Consent is required for non-heritage related matters.</p>

<p><i>place of heritage significance or archaeological site or a building, work, relic, tree or place within the heritage conservation area, and</i></p> <p><i>(ii) would not adversely affect the heritage significance of the heritage item, Aboriginal object, Aboriginal place, archaeological site or heritage conservation area, or</i></p> <p><i>(b) the development is in a cemetery or burial ground and the proposed development:</i></p> <p><i>(i) is the creation of a new grave or monument, or excavation or disturbance of land for the purpose of conserving or repairing monuments or grave markers, and</i></p> <p><i>(ii) would not cause disturbance to human remains, relics, Aboriginal objects in the form of grave goods, or to an Aboriginal place of heritage significance, or</i></p> <p><i>(c) the development is limited to the removal of a tree or other vegetation that the Council is satisfied is a risk to human life or property, or</i></p> <p><i>(d) the development is exempt development.</i></p>	
<p>(4) Effect of proposed development on heritage significance</p>	
<p><i>The consent authority must, before granting consent under this clause in respect of a heritage item or heritage conservation area, consider the effect of the proposed development on the heritage significance of the item or area concerned. <p>(5) Heritage assessment</p>	
<p><i>The consent authority may, before granting consent to any development:</i></p> <p><i>(a) on land on which a heritage item is located, or</i></p> <p><i>(b) on land that is within a heritage conservation area, or</i></p> <p><i>(c) on land that is within the vicinity of land referred to in paragraph (a) or (b),</i></p> <p><i>require a heritage management document to be prepared that assesses the extent to which the carrying out of the proposed development would affect the heritage significance of the heritage item or heritage conservation area concerned.</i></p>	<p>Part of the land is the site of a building identified as a heritage item.</p> <p>The land is ostensibly “within the vicinity” of the Shop (Former) at 6-8 Factory Street, and the Granville RSL at 5 Memorial Drive. <p><i>conservation management plan before granting consent under this clause.</i></p>	
<p>(7) Archaeological sites</p>	
<p><i>The consent authority must, before granting consent under this clause to the carrying out of development on an archaeological site (other than land listed on the State Heritage Register or to which an interim heritage order under the Heritage Act 1977 applies):</i></p> <p>(a) <i>notify the Heritage Council of its intention to grant consent, and</i></p> <p>(b) <i>take into consideration any response received from the Heritage Council within 28 days after the notice is sent.</i></p>	<p>The subject place is not identified as being of archaeological significance.</p>
<p>(8) Aboriginal places of heritage significance</p>	
<p><i>The consent authority must, before granting consent under this clause to the carrying out of development in an Aboriginal place of heritage significance:</i></p> <p>(a) <i>consider the effect of the proposed development on the heritage significance of the place and any Aboriginal object known or reasonably likely to be located at the place by means of an adequate investigation and assessment (which may involve consideration of a heritage impact statement), and</i></p> <p>(b) <i>notify the local Aboriginal communities, in writing or in such other manner as may be appropriate, about the application and take into consideration any response received within 28 days after the notice is sent.</i></p>	<p>The subject place is not identified as being of Aboriginal significance.</p>
<p>(9) Demolition of nominated State heritage items</p>	
<p><i>The consent authority must, before granting consent under this clause for the demolition of a nominated State heritage item:</i></p> <p>(a) <i>notify the Heritage Council about the application, and</i></p> <p>(b) <i>take into consideration any response received from the Heritage Council within 28 days after the notice is sent.</i></p>	<p>The subject place is not identified as being of State significance.</p>
<p>(10) Conservation incentives</p>	
<p><i>The consent authority may grant consent to development for any purpose of a building that is a heritage item or of the land on which such a building is erected, or for any purpose on an Aboriginal place of heritage significance, even though development for that purpose would otherwise not be allowed by this Plan, if the consent authority is satisfied that:</i></p> <p>(a) <i>the conservation of the heritage item or Aboriginal place of heritage significance is facilitated by the granting of consent, and</i></p> <p>(b) <i>the proposed development is in accordance with a heritage management document that has been approved by the consent authority, and</i></p>	<p>Conservation incentives are not sought.</p>

- (c) *the consent to the proposed development would require that all necessary conservation work identified in the heritage management document is carried out, and*
- (d) *the proposed development would not adversely affect the heritage significance of the heritage item, including its setting, or the heritage significance of the Aboriginal place of heritage significance, and*
- (e) *the proposed development would not have any significant adverse effect on the amenity of the surrounding area.*

Heritage Items within the Vicinity

Shop (Former) at 6-8 Factory Street

The site of the proposed development is physically removed from that of both items: “Shop (Former)” at 6-8 Factory Street; and “Lidcombe RSL Club” at 5 Memorial Drive.

The “Shop (Former)” is to the south/ south-west on the corner of Factory and First Streets, and is separated from the subject site by a lane approximately 6.55 metres wide (20 feet).

An historical aerial of the area shows the development on the site at the time:

29. 1943 “From the Skies” series aerial photograph. 6-8 Factory Street. (Source: SIX Maps © NSW Lands 2015).

The what appear to be outbuildings to the Factory St / Lane frontages have since been removed and the rear of the site given over to carparking.

A pre-school child care facility has also been built on the land to the west of the Shop (former),

30. Carpark to rear and Child Care facility to the west.

31. First St façade of the Shop (former).

The shadow analysis at PTI drawings P343.1/07D to -/21D indicate that there will be partial shadowing of the rear/ lane end of the site (noted as “3 First Street” on the drawings), with the most impact arising from the proposed building on Site 2 at 10 a.m. on 21st June:

32. PTI dwg. P343.1/16D. 6-8 Factory St.

While the site of the heritage item is partially shaded at the winter solstice, the item itself is not, and the shadow diagrams show that there are lesser shadow impacts at other times of the day and year.

The potential physical impacts are a matter of geophysical analysis and site management in terms of potential vibration, and it is highly improbable there will be adverse physical impacts.

There will be some visual impact by virtue of the size and height of the proposed development as it will be seen in the background of the item when viewed from the station point of images 4 and 31, above. The architectural expression of the proposal is relatively simple and recessive, and the legibility of the item in street views will remain. Views from the item will be similarly affected by the size of the proposed development, but such views are limited.

Granville RSL Club

This item is located to the north-west of the subject site, diagonally across the intersection of William Street and Memorial Drive/ Clyde Street.

The main entrance of the Club is from the carpark to the north of the club building itself, with the subject site located in the order of 110 metres to the south east.

33. Entrance to Granville RSL from carpark.

34. View to subject site.

Views along William Street from the west include existing residential flat buildings [RFBs]:

35. Granville RSL Club. Subject site, RFBs to right.

36. Service entrance to William St frontage of the Club.

The proposed development, at 7 levels, will be a significant increase in height when compared to the existing former factory building on the site and the RFBs to the west, but the latter, at 3 levels above a part excavated basement (effectively 3.5 level in height), will provide an appropriate transition in scale, and the overall impact on the club will be relatively benign.

Again, the proposed development employs mitigating measures such as stepping the volume of the levels, and as can be seen in the photomontage (which is a view from the west on William Street) - see Image 27, p7, above), where the first 4 levels have a vertical façade, with those levels above stepping back progressively.

The architecture, and proposed materials, finishes and colours are relatively simple and recessive and the overall impact, both visually and physically will be minimal.

City of Parramatta Heritage Study 1992

The “William Street Cottages Group” was initially identified as a heritage item following the City of Parramatta Heritage Study of 1992 by Meredith Walker. It is described, at Inventory Number 621 as:

Three single fronted single storey cottages.

Nos [sic]. 8 Weatherboard cottage with western wall replaced with fibro. Verandah filled in. Hipped roof clad with corrugated iron.

No. 10 Weatherboard cottage. Hipped roof clad with corrugated iron. Front verandah supported on open work cast iron verandah supports.

An image is provided:

Chimney now removed

“Open-work” pilasters now removed. They appear to be “propping” the beam and were introduced rather than original fabric’.

H. CONCLUSION

The above analysis has shown that the potential visual and physical impacts on the heritage items within the vicinity will be minimal.

The item “*William Street Cottages Group*” no longer exists in any meaningful sense and the sole survivor has been so altered that it no longer demonstrates the nature of *modest workers cottages*.

There is virtually no extant visible fabric that dates from the presumed period of construction, with the works seemingly having been done comprehensively sometime in the late 20th/ early 21st centuries. The sub-floor is of limited access, and it is well-nigh impossible to gain a proper understanding of what has happened to the cottage without substantial intrusive investigation. In the event that the changes can be determined, the extent and degree of introduction of new material to “reconstruct” the cottage is such that its cultural value would be negligible.

The resultant building would be something of a variant of Theseus’s paradox as represented in the apocryphal *George Washington’s axe*, wherein an item is presented as George Washington’s axe with an explanation to the effect that the head has been replaced twice and the handle, thrice (or variations on this) since in the possession of George Washington [see “The Same Ax, Twice- Restoration and Renewal in a Throwaway Age” by Howard Mansfield (ISBN 1-58465-028-1)]. The question is: is it still George Washington’s axe? The answer would logically be no- as is the case with the validity of the reconstruction of the subject cottage.

In my opinion, the building could possibly be earlier than the c.1900 date attributed to it on Inventory Sheet 2240621, as the Sands directory evidence points to the site being occupied as early as 1893, although the 1992 heritage study attributes a post-1916 construction date.

Notwithstanding this, the physical cultural value of the building has been totally obliterated and in my view it would be just as instructive to record the cottage and allow its removal, rather than present it as a sham item, which has no ability to demonstrate its former nature.

History

Historical notes: Land auctioned for Hudson Brothers as "Clyde" in December 1884. An earlier building had been erected on lot 29 by 1914. Between 1914 and 1929, this building was removed and all three cottages built. Lots 27 & 28 held by John Fergus until his death in 1919. Lot 29 devised to Roseanna Young, wife of D'arcy Young, Leichhardt, tram driver in 1915. She took out two mortgages over the land in April 1916 which probably financed the erection of the cottage (No. 6 - not included in listing) The other two cottages appear to have been built for Fergus at the same time.
