<b>Posted Submissions</b>		
<p>Submission 1, 2,3,4</p> <p>Support the Draft Landscape Masterplan for Hyland Road Reserve. The Draft Master Plan has the potential to assist in delivering key priorities of the Draft Cumberland Cultural Plan, including:</p> <ul style="list-style-type: none"> <li>-Improving cultural facilities, spaces and streets</li> <li>-Enhancing place identity and activation</li> <li>-Supporting cultural groups and individuals</li> </ul>	<p>- Landscape Masterplan facilities the inclusion of space for community cultural facility</p>	<p>No change is recommended for Submission 1,2,3,4</p>
<p>Submission 5</p> <p>growing diversity in the community and it would be a great cultural experience for our community to have a Marae that many cultures in our community can experience.</p> <p>support the Draft Landscape Masterplan for Hyland Road Reserve which are:</p> <ul style="list-style-type: none"> <li>• supporting cultural groups and individuals</li> <li>• Recognising Cumberland’s Aboriginal cultural heritage</li> <li>• Enhancing place identity and activation</li> </ul> <p>The draft masterplan provides reassurance clarity as to how the land may be developed to be supported by the needs of local community.</p>	<p>Opportunity for recognising Aboriginal Cultural heritage</p>	<p>No change is recommended for Submission 5</p>

Comments / Suggestions	Council response	Changes to document
<p>Submission 6 &amp;7</p> <p>a growing need for a sense of community it in the local area. This area and community centre will, in my view encourage community at the same time supporting local Aboriginal people in the local area. The community centre in turn will encourage local diversity, culture and identity within our community</p>		<p>No change is recommended for Submission 6 &amp;7</p>
<b>Have your Say Submissions</b>		
<p>Respondent 1</p> <p>Overall greatly support the plan, except that any dead trees should not be removed from the site (as suggested by page 4, point 2), rather relocated on the site so as to not be a safety issue, but still retain their habitat/ecological value (i.e. hollows and logs especially).</p>	<p>Plan refers to exotic dead trees and thin Casuarinas, however note the need to retain habitual and ecological values.</p>	<p>No change is recommended for Respondent 1</p>
<p>Respondent 2</p> <p>Shared paths are not popular especially with older persons unless they provide a significant width and markings Paths should have more shade at regular intervals Avoid the use of loose gravel paths as they are not very accessible for many with disability, older persons and parents with prams</p>	<p>Ensure shared path widths are adequate to standards allow separation of pedestrians and cyclists, as per existing Lower Prospect canal.</p> <p>Shade trees are included in the design and in future detailed plans.</p>	<p>No change is recommended for Respondent 2</p>
<p>Respondent 3</p> <p>Great to hear that this vacant land is to be cleaned up and provided as an amenity for public use. It has been a natural</p>		<p>No change is recommended for Respondent 3</p>

Comments / Suggestions	Council response	Changes to document
<p>oasis in suburbia, having a wide variety of native trees and vegetation, which is a supporting habitat for many birds and animals.</p>		
<p>Respondent 4</p> <p>Can this area please include some play style equipment for children?  natural or indigenous edge playground  The national arboretum in Canberra has a wonderful children's playground to gather some ideas  Pemulwuy desperately needs more parks with growing development, particularly a park with amenities!</p>	<p>Play equipment has been included in the centre of the Reserve neat the shaded picnic and BBQ areas and public amenities.</p> <p>Further design could include nature play elements in accordance with recommendations of the Playspace Strategy being developed this financial year.</p>	<p>Change is recommended for Respondent 4</p> <p>Proposed play area has been included in the masterplan in a central location</p>
<p>Respondent 5</p> <p>Does not want the proposed walkway from the reserve connected to Munro Street.</p> <p>.Putting a community centre here would cause noise (which would echo across to Munro st and Gipps Rd) and would further impact on traffic in this area</p> <p>.A better alternative for this space would be an area with outdoor fitness equipment (much like the one that was demolished due to asbestos on Gipps Rd) or an environmental information space</p> <p>There are already many community centres (Pemulwuy, Greystanes Scout Hall, Merrylands)</p>	<p>Walkway linking residents in Munro</p>	<p>Change is recommended for Respondent 5</p> <p>Delete pedestrian link to Munro Street.</p>

Comments / Suggestions	Council response	Changes to document
<p>having a space for community members to have picnics, ride their bike and take their dogs for a walk is great, however it needs to be for the community</p>		
<p>Respondent 6</p> <p>Development of a cultural or community facility with the view to entering into a lease agreement was previously proposed by Council, but due to many adverse issues not to mention a dramatic adverse impact on local residents it was not able to be pursued.</p> <p>In terms of this number of people it provides a great deal of concern covering:</p> <ol style="list-style-type: none"> <li>1. large volumes of traffic bottle necking at the intersection of Hyland and Gipps Roads</li> <li>2. Insufficient onsite parking causing untold congestion and residential issues in surrounding streets. A pedestrian access from Munro Street would exacerbate this situation.</li> <li>3. excessive noise (way in excess of the modelling covered in previous reports)</li> <li>4. increased pollution due to the dramatic increase in vehicles</li> <li>5. lack of facilities leading to anti --social behaviour</li> </ol> <p>Endangered Animal Species -The previous reports did not cover this area nor included any mention of measures for impact mitigation to endangered birds such as the black tailed cockatoos and other selected animals which frequent the area.</p>		<p>Change is recommended for Respondent 6</p> <p>Delete pedestrian link to Munro Street.</p>

Comments / Suggestions	Council response	Changes to document
<p>A report put out by Council in 2007 and again in 2013 indicates that all of the land behind Munro Street including the land in question on the northern side of Hyland Road was part of a Riparian corridor.</p> <p>Proposal for an Arboretum involving DAY TIME ONLY passive recreation needs further consideration.</p>		
<p>Respondent 7</p> <p>believe that there are already enough pre-existing cultural community centres in the community</p> <p>like to ensure that the native wildlife existing in that land currently are protected &amp; their environment promotes safe housing for the flora &amp; fauna (ie. Native Bats that migrate in the park, Black cockatoos, Fairy Rens, Kangaroos etc</p> <p>should just remain a green corridor with amenities, cycle ways / walking paths, etc for the entire community to utilise</p> <p>refer access only via Hyland Rd - There are existing pathways already that allow easy access between Munro St &amp; Hyland Rd</p>		<p>Change is recommended for Respondent 7</p> <p>Delete pedestrian link to Munro Street.</p>
<p>Respondent 8</p> <p>Belief in building strong communities through inclusion and increasing diversity.</p>		<p>Supports current plan.</p>

Comments / Suggestions	Council response	Changes to document
<p>The Waitangi Festival brings over 6000 people from across Sydney and abroad to celebrate culture and community</p> <p>The draft plan provides the Cumberland Community with an opportunity to create more connections and positive use of the Hyland Road parklands</p>		
<p>Respondent 9</p> <p>the proposed design optimises underutilised land which currently appears to be neglected and isolated. The masterplan proposes to improve liveability of Greystanes by providing a beautiful green spaces which are culturally unique and offer environmental sustainability of the area</p>		<p>Supports current plan.</p>
<p>Respondent 10</p> <p>Excited by the possibility of using Hyland Road Reserve for the broader public use and with a cultural centre in mind. Over the years, I have seen that land turn to wasteland and underutilised.</p> <p>Support the Draft Landscape Masterplan for Hyland Road Reserve. The Draft Master Plan has the potential to assist in delivering key priorities of the Draft Cumberland Cultural Plan, including:</p> <ul style="list-style-type: none"> <li>• opening the space with bike ways and pedestrian pathways</li> </ul>		<p>Supports current plan.</p>

Comments / Suggestions	Council response	Changes to document
<ul style="list-style-type: none"> <li>• new cultural facilities to bring more diversity and inclusion in the area</li> <li>• replacing weeds with native flora and fauna</li> </ul>		
<p>Respondent 11</p> <p>Supports the Plan</p>		<p>Supports current plan.</p>
<p>Respondent 12</p> <p>involved with local a Rugby league club</p> <p>Family is in total support of the Hyland Rd reserve draft Masterplan.</p> <p>I see a need to recognise and celebrate Aboriginal culture and heritage is important to maintain there is also a existing and growing demand for community facilities in the local area, able of catering to the needs of diverse communities</p> <p>Believe it's a beautiful space that's not being utilised for the community to enjoy. It's of great importance to educate and empower local community cultural groups and individuals</p>		<p>Supports current plan.</p>
<p>Respondent 13</p> <p>in favor of improving the green space walkways and BBQ areas</p>		<p>Change is recommended for Respondent 13</p>

Comments / Suggestions	Council response	Changes to document
<p>strongly oppose to the connecting walk way bridge from Munro street</p> <p>Strongly oppose the building of a community center on the site due to the noise unsure of the operating hours and the amount of people at a given time ,added traffic to the are</p>		Delete pedestrian link to Munro Street.
<p>Respondent 14</p> <p>support this proposal</p> <p>believe the construction of a Marae will provide support, shared responsibility and cultural significance for all communities</p>		Supports current plan.
<p>Respondent 15</p> <p>As a potential community organisation that could benefit from the delivery of the Draft Hyland Road Reserve Landscape Master Plan, the SMA strongly supports:</p> <ul style="list-style-type: none"> <li>• The strong vision to sustainably develop a currently underutilised public reserve – delivering the objectives of the existing Plan of Management.</li> <li>• The extension of the Cumberland Riverflat Forest along Munro Creek – this will enable important revitalisation of creek and improve the offering of native species on site.</li> <li>• The extensive pedestrian network and public amenities proposed within the reserve – these will allow for activation of the site by all members of the community and provide important connections to existing active transport networks in</li> </ul>		Supports current plan.

Comments / Suggestions	Council response	Changes to document
<p>the surrounding areas.</p> <ul style="list-style-type: none"> <li>• The prominent location of a future cultural community facility – this location will enable activation and passive surveillance across the broader reserve and within the existing local community.</li> </ul>		
<p>Respondent 16</p> <p>I see a need for more community facilities to empower our diverse community the area that is proposed needs to be utilised by the community bike tracks and walking paths bbq area's will definitely get used.</p>		<p>Supports current plan.</p>
<p>Respondent 17</p> <p>I agree with the creation of more people friendly walkways and creation of facilities such as bbq and toilet amenities (as required to service the public's need) so that outdoor recreation can be enjoyed in conjunction with an appreciation flora and fauna</p> <p>Definitely no community hall or any other centre that would encourage meetings/gatherings as this would negatively impact not only the said flora/fauna we are trying to protect/ enjoy but all the residents</p> <p>No to access from Munro St</p> <p>should be done on a sun up/ sun down basis, similar to Central Gardens</p>		<p>Change is recommended for Respondent 17</p> <p>Delete pedestrian link to Munro Street.</p>

Comments / Suggestions	Council response	Changes to document
<p>Respondent 18</p> <p>No development, keep the site green.</p>		
<p>Respondent 19</p> <p>The reserve needs to be updated and improved to allow all the community to enjoy the recreational area. At the same time preserve the natural beauty flora and fauna occupying the area</p>		Supports current plan.
<p>Respondent 20</p> <p>an excellent addition to the community allowing our children to have some sort of community hall where it is safe to go to</p>		Supports current plan.
<p>Respondent 21</p> <p>strongly object to the building of a Community Centre in this area</p> <p>object to a link from this area to Munro Street</p>		
<p>Respondent 22</p> <p>Hyland Road Reserve Draft Landscape Masterplan is a great idea for the community. Think it will work great for the future and present families living in Greystanes.</p>		Supports current plan.

<b>Comments / Suggestions</b>	<b>Council response</b>	<b>Changes to document</b>
Respondent 23  support this plan  project will bring people together and enhance the development of connecting with different cultures		Supports current plan.
