When the laneway was originally opened my land was acquired for this purpose without any compensation provided from Council. I am seeking that should this proposal be approved then this land is to be reinstated to me at no cost to myself, considering the original acquisition.
I have stopped sleeping properly - cannot sleep at all without the ambient noise of the TV, have been threatened "I know where you live, I'll burn your house down", had the trees in the park adjoining my property set alight, had my property vandalised, my car broken into, my partner assaulted a number of times, had armed robbers dump their vehicle opposite my house on and on it goes week in and week out as a direct result of access from Cumberland Road via Benaud Street laneway into Benaud Street and Benaud Street park.
Sick of the riff raff going through early hours of morning from hotel the sit these drinking and I have found drugs materials there. They kick my fence when my dogs bark as they are so loud. I have found rocks etc. thrown over at the dogs. They smash the bottles and I have to clean next day. I have health problem and my bedroom is right at laneway. I am sick of the disturbance it is nearly every night.
It will reduce and deter persons from committing any crimes.
